Programme N0312A200024: Master in Area Studies

Academic year 2020/2021

The Master in Area Studies programme (MAS) is a two-year English-language interdisciplinary Master's degree programme that offers expert knowledge and analytical-synthetic skills focused on modern history and current developments of Europe, Eurasia, and North America. The programme provides the students with tools for social science analysis and allows them to build their own thematic and territorial profile according to their individual needs and future career plans. Students enrolled in MAS may choose one of the two specialized tracks: Globalising US Studies and Transition and Integration Studies.

MAS graduates will be endowed with internationally recognizable multi-disciplinary training in the study of international affairs. They will be able to analyze individual topics arising within the region of their interest from a multidisciplinary point of view in terms of social sciences (sociology, economics, political science, and international relations) and modern history. Programme graduates will be able to understand current issues in their historical, societal, political, and economic context.

The programme graduates will become highly-skilled employees in the civil service and diplomacy, NGOs and international institutions as well as in private companies and mass-media. They will be well prepared for a variety of academic pursuits and will possess a wide range of knowledge and skills required in various social science fields.
