
(NMgr) Programme: Master in Economic Research (NP_MER)

Programme N0311A050011: Master in Economic Research – master, full-time

Academic year 2022/2023

The MA in Economic Research is a Western-style graduate program designed for students who have completed their undergraduate studies and are interested in modern economic research.

The program is spread over the course of two years. In each semester, students take three courses that equip them with the systematic knowledge of economic theory and empirical research techniques, and undergo Academic Writing training. At the end of the second year, they defend their MA thesis.

The aim of this program is to prepare students for further postgraduate education in economics either in CERGE-EI's PhD in Economics program or at other high-quality universities in Europe and North America.

Graduates not wishing to continue on with a PhD study will be equipped with all the tools and expertise necessary for developing a career in research, analyst and quantitative positions at international and government organizations, public policy institutions, non-profit think-tanks and private sector companies.

Academic supervisor: **doc. Nikolas Karl Mittag, Ph.D.**

Course Structure and Study Requirements

Total ECTS	120 ECTS
Compulsory courses	39 ECTS
Elective courses	min. 69 ECTS
Optional courses	max. 12 ECTS

Optional courses see article 5 para 4 of Consolidated University Code of Study and Examination of Charles University in Prague.

Master state examination

(JDIP01) Master's thesis defence

Compulsory courses

Group J#0192
