
Studijní obor 6201T - Economics & Finance - bachelor degree

Study Branch B6201R Economics and Finance – bachelor degree

Bachelor in Economics and Finance (BEF) is a three-year study branch taught fully in English. Its aim is to give the student a thorough grounding in both theoretical and applied economics and finance. We put emphasis on developing abstract analytical reasoning, which allows our graduates to solve complex economic and financial problems in various settings. Courses are taught both by IES faculty and external professionals from the central bank, commercial banks and business analysts. Our graduates typically assume challenging positions in banking, consulting, investment funds and public administration.

Academic supervisor of the bachelor study branch Economics and Finance is **Doc. Ing. Tomáš Cahlík, CSc.**

Study obligations: 180 credits

A) Mandatory subjects:

Student must pass all mandatory subjects according to the list below.

B) Elective subjects:

C) Optional subjects: max. 27 credits

Student must pass elective subjects (J#0067, J#0011) and Special Offers bsA) and optional subjects to fulfill together with mandatory subjects the total of 180 credits. Other subjects - than mandatory and elective subjects specified for this study branch here - taught at the University are regarded as optional subjects. As optional subjects are also regarded subjects taught at other higher education institutions or their parts, or other education or scientific institutions, if so established by an agreement between the faculty or University and that university or institution.

State Exam:

Parts:

1. Microeconomics
2. Macroeconomics
3. Financial Economics
4. Bachelor's Thesis Defence

Mandatory Subjects J#00010
